

Get busy and make your own Not So Busy Bee mobile!

Watch the video of me making this and other bee crafts
www.ruth-waters.com/notsobusybee

You will need:

- yellow and black wool, 5 pine cones, scissors, tracing paper and a stick (approx 30 cm long).

Instructions:

1. Wrap your yellow and black wool around the pine cone. Tuck the ends inside the pine cone.
2. Cut a wing shape out of your tracing paper (feel free to use another material for the wings - i.e. fabric, netting, wire).
3. Tie the wings onto the bee by wrapping the black wool around it.
4. Tie a length of black thread around the middle of the pine cone bee. Leave 15-20 cm in wool so you can attach it to the stick.
5. Repeat stages 1-4 so you have 5 pine cone bees. Then attach the bees to the stick - as per the below photo.
6. Tie yellow wool to both ends of the stick so you can hang it up.
